Rx **The most trusted treatment of Malaria**
Arcither
Alpha-Beta Artether Injection **Injection**

POTENT POWER AGAINST MALARIA

- Highly effective against the blood schizonts of both malarial parasites
- Useful in multi-drug resistant stains of falciparum malaria
- Complete parasite clearance from the peripheral blood in 80% of the patients at 48 hrs and in 98% at 72 hrs¹
- Rapidly recovery from complications²

INDICATED IN

- Chloroquine resistant malaria
- Complicated falciparum malaria
- MDR Malaria
- P. vivax Malaria
- Cerebral Malaria

DOSE

Adults: 150mg /arteether, daily for 3 consecutive days
Children: 3mg / arteether/kg body weight daily for 3 consecutive days

Rx **In Multidrug Resistant Malaria**
Arcinate
Artesunate 60mg Injection **Injection**

THE WINNER SCHIZONTICIDE

- Effective in both P. falciparum and P. Vivax malaria
- Significantly superior to chloroquine, pyrimethamine/sulfadoxine combination
- Minimizes risk of development of resistance
- First line therapy for Malaria in adults and children

INDICATED IN

- Chloroquine resistant malaria
- P. falciparum & P. Vivax malaria
- Cerebral Malaria

DOSE

Adults & Children:
2.4 mg/kg IV x4 doses over 3 days

When joint pain restricts mobility

DOLOPREX
Piroxicam 20mg Injection **Injection**

RESTORES MOBILITY

- ▶ Potent and effective anti-inflammatory agent
Better tolerated than aspirin and indomethacin
- ▶ Possesses long half life which permits single daily dosage
- ▶ Offers safety & faster pain relief in Osteoarthritis and Rheumatoid Arthritis

INDICATED IN

- ▶ Osteoarthritis
- ▶ Rheumatoid Arthritis
- ▶ Gouty Arthritis
- ▶ Ankylosing Spondylitis

DOSE

20 mg once a day

Strong Candidate to Achieve Tough Target

Arcino
Triamcinolone 40mg Injection **Injection**

TOUGH ON TOUGH TARGET

- ▶ Potent synthetic corticosteroid agent with marked anti-inflammatory action
- ▶ Reduces swelling, redness, itching & allergic reactions
- ▶ first-line therapy option in adults with moderately severe seasonal allergic rhinitis¹
- ▶ Significantly lowers pain scores in arthroscopic knee surgery²

INDICATED IN

- ▶ Allergic Disease
- ▶ Arthritis
- ▶ Other Connective Tissue Disorders
- ▶ Psoriasis
- ▶ Allergic Rhinitis

DOSE

Smaller joints: 2.5 to 5 mg (up to 10 mg)
Larger joints: 5 to 15 mg (up to 40 mg)

In Neuropathy

Arometh-G

Pregabalin 75mg +Methylcobalamin 750mcg Tablets **Tablet**

THE PREFERRED PARTNER

- ▶ Pregabalin is UDFDA approved drug of choice in neuropathy¹
- ▶ Methylcobalamin is trusted drug for regeneration of damaged nerves²
- ▶ Combination of Pregabalin and Methylcobalamin is rated as good to excellent by >95% of patients³
- ▶ Significantly improves quality of life

INDICATED IN

- ▶ *Diabetic Neuropathy*
- ▶ *Alcoholic Neuropathy*
- ▶ *Neurological disorders*
